

New Specification GCSE Design and Technology: Resistant Materials Technology Jewellery Box Commentary

Assessment Criteria	Maximum Mark allocation	Mark allocated	Notes
1 Investigating the design context	8	8	Very well presented research, concise appropriate and focussed. Excellent first page.
2 Development of design proposals (including modelling)	32	30	Although this work is clearly of a very high standard, there is a missed opportunity for perhaps modelling in blue tack or plasticine. There are good ideas but jewellery lacks development, but good development work on box. Limited information to allow for 3 rd party manufacture of the jewellery. There is adequate information for making the box.
3 Making	32	32	!!!!
4 Testing and Evaluation	12	6	Good ongoing evaluation high level comments; final evaluation weaker. No modifications mentioned.
5 Communication	6	6	
Total	90	82
